

Duck::Base

Duck::Base

Duck::Decoy

```
graph BT; D1[Duck::Base] --> D2[Duck::Decoy]; D2[Duck::Decoy] --> D3[Duck::Base];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'Duck::Decoy'. Two lines extend upwards from this box, branching out to two separate boxes at the top, both labeled 'Duck::Base'. This indicates that 'Duck::Decoy' is the superclass, and the two 'Duck::Base' boxes are subclasses.
