

IQuackObservable

```
graph BT; RedheadDuck --> Quackable; Quackable --> IQuackObservable;
```

A UML class diagram illustrating inheritance. At the bottom is the class 'RedheadDuck'. An arrow points from 'RedheadDuck' to the class 'Quackable' above it. Another arrow points from 'Quackable' to the interface 'IQuackObservable' at the top. All three classes are represented by rectangular boxes with double borders.

Quackable

RedheadDuck
